Glenwood Dyer Road lane reductions begin Sep. 14

CHICAGO – The Illinois Department of Transportation announced today that repairs to the bridge that carries Glenwood Dyer Road over Illinois 394, in Glenwood and Lynwood, will begin, weather permitting, Tuesday, Sep. 14.

To accommodate the work, Glenwood Dyer Road will be reduced to one lane in each direction between Dante and Stony Island avenues with lane widths reduced to 11 feet. Access to residences and businesses within the work zone will be maintained throughout construction.

The \$1.4 million project, which consists of a new bridge deck overlay with joint and structural steel repairs, along with modernized traffic signals, is expected to be completed in summer 2022.

Motorists can expect delays and should allow extra time for trips through this area. Drivers are urged to pay close attention to flaggers and signs in the work zones, obey the posted speed limits and be on the alert for workers and equipment.

Over the next six years, IDOT is planning to improve more than 3,535 miles of highway and 9 million square feet of bridge deck as part of the Rebuild Illinois capital program, which is investing \$33.2 billion into all modes of transportation. Accomplishments through Year Two included approximately \$5.2 billion of improvements statewide on 3,020 miles of highway, 270 bridges and 428 additional safety improvements.
